Malta – Platin Gaming, one of the most established and successful sportsbook platform providers in the iGaming industry, has rolled out its state-of-the-art Partial and Auto Cash Out functionality with Tipbet.

Tipbet, which is powered by the Platin Gaming sportsbook platform, has taken its player experience to the next level with its new offering, delivering even more excitement and betting opportunities to punters.

The addition of Partial and Auto Cash Out builds on Tipbet's standard Cash Out offering, which launched in April 2017. The new functionality puts more control in punters' hands and delivers increased flexibility across single bets and multi-bets.

It also makes Tipbet one of just a few tier one operators to offer Partial and Auto Cash Out to their players.

\*Partial Cash Out\* can be accessed via the customer's betting slip. The amount offered is based on how the bet is performing

and the likelihood of a win. Punters can choose a percentage or specific amount to withdraw; the reduced balance remains live in the bet.

*\*Auto Cash Out\** allows punters to set a limit for cash out. Once that limit has been hit, the bet will automatically pay out. This is particularly useful for those who are unable to monitor their betting slip as events unfold during the game.

Partial and Auto Cash Out is available to Tipbet players across all platforms, devices and operating systems, and in all languages.

*\*Philippos Naskos, Head of Product at Platin Gaming\**, said: "We are delighted to have flicked the switch on our Partial and Auto Cash Out functionality with Tipbet. Players want more flexibility and control, and this puts the power very much in their hands.

"We are particularly pleased with our innovative Auto Cash Out functionality; it means players can take advantage of cash out even when they are unable to monitor the progress of game or keep an eye on their betslip.

"We believe Partial and Auto Cash Out will be a huge hit with Tipbet players, and look forward to receiving their feedback."
