

G2E: Big Rush on AGI Booth

New games turn out to be a box-office success

G2E's Booth Nr. 2742 seemed to be a magnetic attraction in Las Vegas' Convention Center. The new games and Multi-Player systems from Austrian Gaming Industries GmbH (AGI), the wholly owned subsidiary of Novomatic Group of Companies, drew a large crowd onto the stand.

AGI's General Manager Jens Halle:

„It is always very exciting seeing how guests and customers are going to react to novelties. We set ourselves a very high standard of quality and entertainment, and always wait with high anticipation on the reactions of visitors. All the more, we have been overwhelmed by the huge acceptance, and the orders placed exceeded all our expectations.“

Pleasant game titles like Diamond Trio™, Oliver's Bar™, First Class Traveller™, Gryphon's Gold™ and Banana Splash™ caused high visitor traffic, so it became difficult to find a free machine to try the new games by ones self.

„I would like to send a big Thank You to our customers and visitors for the big rush to the stand, and the patience they showed during the time they spent waiting. The attendance was resounding and more than repaid the dedication and enjoyment we put into the show,“ concludes Jens Halle with pride.“

The new 9-line, 5-reel video games were presented on AGI's top

selling machine Gaminator® which incorporates the full range of Coolfire® platform functionalities and features a space saving cabinet in elegant silver of only 440mm depth.

Two extra large TFT screens tilted to each other for increased player convenience display exciting 3D animations and complex graphics for enhanced gaming experience. Touch interface, player tracking options and superior stereo sound are understandable reasons for the rush on AGI's booth.

The crowd had been caused not only by the new video games but also by the presentation of Multi-Roulette NOVO Unity™. The server based multi game platform was launched for the TouchBet® Roulette family and allows casino guests to choose between the multi player's Novo TouchBet® Live-Roulette, Novo Flying Roulette™, Novo Multi-Keno™ and Novo TouchBet® Live-Sic Bo on only one terminal. This offers maximum entertainment and diversification to casino guests and is extremely flexible to manage and control for the operator.
